

# Trimmers Selected from what we like best.

Embracing harvest automation is imperative for commercial growers as it not only leads to increased profits and improved flower quality but also enables a more discreet operation with reduced labor requirements. Today, even smaller-scale operations can enhance their harvest productivity by transitioning from manual trimming to automated machine trimming. Advances in technology have made them accessible to a broader range of growers. Our offerings encompass a comprehensive range of automation solutions to streamline every facet of your harvest process.

## Dry vs Wet Trimming

The wet trim vs. dry trim debate is mainly a matter of personal preference, but we generally recommend dry trimming for its benefits such as preserving terpenes which leads to more enjoyable consumption. However, in cases of large crops where drying space is limited, wet trimming followed by drying may be necessary.

Brand	Product	Scale	Trim Type	Feed / HR (LB)	Notes
	<b>MINI DRY</b> Portable, versatile, and easy to use tumbler machine. Trim anywhere your harvest takes you. This award winning portable bud trimmer offers commercial grade quality.	Small	Dry	8	Portable Trimmer & Tumbler
	<b>DRY</b> This dry trimmer was designed to go anywhere. Simply roll it where you want to go. Pull Pin system makes loading, dry trimming, and emptying the machine quick and easy. Pressure washable.	Small to Medium	Dry	20	Fast, Quiet, and User-friendly. Portable.
	<b>XL DRY</b> Triminators XL Dry Trimmer was designed for cultivators who demand commercial-scale throughputs with hand-trim quality.	Large	Dry	60	Commercial Use
	<b>BATCH ONE GO</b> High-end materials, easy to use and a game changing price. Engineered to make dry trimming your small batch a breeze.	Small Batch	Dry	5	Craft Style
	<b>T6</b> The Twister T6 is a revolution in small batch trimming and automation. The radical new small-capacity tabletop design allows for quality, hand trim-finished trimming.	Small Batch	Dry, Wet	2, 6	Grab and Go Design, Lightweight,
	<b>T4</b> The Twister T4 SE helps alleviate the pressure by adapting to the variability in cultivar characteristics, like flower quality, size, and density keeping you on top of your harvest schedule so you can focus on other aspects of the business.	Mid Size Hybrid	Dry, Wet	7, 23	Can scale up by connecting additional T4s
	<b>BATCH ONE</b> The BatchOne lets you speed up your harvest, ensuring a faster market entry and optimal ROI. With precise saddle adjustments and a ¼ HP motor that prevents stalling—unlike competitors—it offers unmatched batch trim confidence.	Mid to Large	Dry	88	40% larger tumbler than closest competitor
	<b>1600 HANDCRANK</b> The ideal machine for beginners. It sits nicely on a tabletop or other surface and doesn't require electricity or battery charge. This convenient hand crank trimmer is capable of trimming up to 1 lb of dry product in under 5 minutes!	Small to Medium	Dry, Wet	10, 30	Tabletop and Beginner Friendly
	<b>TTT 1900 Trimmer</b> The TTT 1900 is one of their most popular products because it features an innovative design that processes buds in a fraction of the time it would take to trim by hand.	Small to Medium	Dry, Wet	20, 60	Quiet and Easy to Use
	<b>TTT 2600 Trimmer</b> The TTT 2600 dry flower trimmer is no doubt the most gentle, most effective, and one of the fastest trimmers on the market. When used properly, hand-trimmed quality is easily achieved.	Mid to Large	Dry, Wet	60, 180	Easy to Use and Maintain
